**PLEASE ENSURE ALL SUPPLIES ARE LABELLED BEFORE BRINGING THEM TO SCHOOL**

If you are thinking about getting your child some type of tech device for school, I would strongly recommend looking at a Chromebook. They are relatively inexpensive (as compared to a typical laptop or iPad) and they are what we use at the school. It is certainly not a requirement, but I have had several parents ask about what devices they can get for their kids. The school website has an information page about Bring Your Own Device.
